

I am Wayne Purselley, retired USAF and Richfield/Waco High science/math teacher. So I know Waco! I have known Rob Curnock for over 10 years and support him unreservedly. One big reason is Rob has always been ACTIVE in support of conservative politics and very active in McLennan County Republican groups.

Rob has worked within the party for many years in the battle to unseat liberal Chet Edwards. In the 2008 election there was no one to run against Chet. Rob Curnock believed Chet was vulnerable because of his strong ties to the emerging DC Socialistic leadership. The telling example was his endorsement for Obama's VP by Nancy Pelosi (sp?).

Rob's analysis proved to be true BUT in the '08 election a few deceived **conservatives** evidently could not believe Chet Edwards would join the Socialistic/Democratic movement totally. My analysis is that American/Texas voters cannot comprehend the devious ways some political office holders and/or Primary candidates use in order to hold or gain political office. Trusting, honest voters **want** to believe that people seeking to **serve us** in a political office would surely not **purposefully** make inuendos, rumors, and especially not make misstatements in order to win a primary nomination or an election. But it does in fact happen! Therefore every accusation, claim, or statement a candidate/supporter makes must be thoroughly researched and substantiated.

Rob is a winner, thoughtful, and passionate. Look at his record of involvement in the political arena. He has been active and committed even in face of formidable odds. Rob needs your vote, your support as an active antisocialist and a Pro-American. Your financial contributions are indicative of your determination to fight the Anti-American agenda in DC.

Rob's cash position is strong but much more money is needed for the soon coming campaign. Put your money where the heart of American values can be won.

Join our fight for right,  
Wayne Purselley
